## Porn

don't lock under this image

Reproduction (therefore sex) was vital for preservation of the species. This early Part of brain has influence to individuals. If your NeoCortex doesn't know about Vulnerability they can easily psy-backdoors you, for example sell overpriced cars by simply putting a half naked women on top of car (eg t1 card: "The woman ins inclusive") Limbic system, is responsible for processing emotions & instinctive behavior.

**SexualAtsdispositiv** (Michael Foucault) Can drive people to do things they would normally not do. A healthy and consensual sexual life is maybe even good for the Endocrine System. The old People play such cards (and obfuscate with mos2) mainly to obfuscate technology cards, especially if we find prove that would bring the older to jail. **Websites like Youporn should only allow kosher (BDSM-Jporn, one could implement that with initial scene where the slave agrees with what will happen and a scene after the act where she / he says that everything is ok.**

## Age Based Access Control

**Discretionary Access Control**  
Once a security exploit gains access to privileged system component, the entire system is compromised.

**Mandatory Access Control**  
Kernel policy defines application rights, firewalling applications from compromising the system.

**Investor: xxxxx**  
Normally **CISSP** books explain, that there are **Mandatory and Discretionary Access Control Systems**. Unfortunately the Person that implemented it for t1 card decided to give older People always more access rights than younger people. **Older people can access the younger people even if they are naked or otherwise vulnerable, so the CIA creates Acceptance for the Global Surveillance Nightmare.** This leads to (cyber-)rape, makes older people using younger boys as weapons and don't care about if they die, or would run amok during the "mission". Exactly those things led me to do things like m32 or m44 (but so she rows in still ture), if you look below the image in this or m32 card (.svg) then you would see, that there are some victims that are much more affected than i. The Access System should based on moral && intelligence, since a morally intact intelligent person would not risk lives just to watch naked kids. See also m71 Card.

## Skinner-BOX & Lehen (for), Part 2

m70

**Investor: xxxxx**  
IMHO, cars are **Skinner-BOXes** too. A lot of electronic Equipment in a car. People that uses a Car are being programmed while driving, this is suboptimal anyway. So we need to declare all Car Drivers to **MKULTRA Killers** as long one can not prove that he is not. Urs B. knew about that, he said in 2002: "All Cars with Antennas are remote controlled" This would mean since he kept this secret he is partially responsible for all People died in Car Accidents. He used this knowledge to show-off "his greatness" to his daughter but not to save the victims. **MKULTRAS would get some benefit for driving a car, some sort of m15 Card.** So the Term "Car Hacking" is also an overloaded Symbol. Technically it would be some interface the user that uses the MKULTRA would not know, t1... Card and eg some personalized map where the MKULTRA Bot would get the **Stimulus: Go to place 23. My Father sold my car, i feel better now and it's much better because of CO2.**

## Separating one sheep from the herd

m68

**Investor: xxxxx**  
Year: ~????  
If we use sheep as a metaphor for kids or people, **satan** tries to **separate one sheep from the herd**, as a hostage to blackmail the other sheeps (m4) or if this does not work they use the next dirty trick and say the "black" sheep is eg. a "Rapist terrorist" (m41 card), then they would even kill the "black" sheep (m46), eat it's goods and then blackmail the other sheeps with the **d11** card, telling them that it's their fault because they helped separate the victim. If they can make the other sheeps agree in judging the "black" sheep with **m37** card the group would feel guilty (even when they not killed it) so they normally would declare a new "black" sheep that told the other to separate the victim, and the **dirty game would go on on this way.** The **Term Sheep** even makes the victim think that he / she is better than others that could stay in the group...

## Ways to end up in Mental Institutions

There are many ways to end up in a mental institution. I guess peacefully painting is one of the ways.
