TraumaBased Mind Control

They burn a trauma into the victim's psyche, in order to be able to reactivate the trauma. In Rombachtal 11/13 there are so far 7 killings maybe induced with technology, the owner Livit AG threw me out of the apartment as soon as i began to ask questions. Maybe they even ordered jürg S. bullet hole to distract from the relevant scenes that would bring the assassin-mastermind into jail. Step two seems to be, that the Killer bought the Judge.
If someone would find the "surveillance" Infrastructure, and could proof that this surveillance does not just listen (eg t1, t15 cards), the owner could not deny his complicity anymore. revictimizing of the bullet hole is done with a simple gun shot sound, over eg. t1, t12... card

EXISTENTIAL ANXIETY

Lot of people live normal lives, living not as a saint but also not a live as satan. They have their routine, their places where they do things like hobbies and where they look TV. But if one finds out, that his company sold a software to a children hospital that would risk lifes of kids and then tries to force the chief to fix that chiefs tend to become angry about such an employee.
When you are young you are maybe not aware of such problems. A normal reaction of the chief would be to intimidate the employee to stay silent, if you are one of this sort of people that can't silent, it is very likely to end up as a homeless, but maybe you saved many lives of innocent kids.
