

WIFI / Bluetooth or other beacon

Inventor: Heinrich Hertz Year: ~1930
(E.g. The Apple iBeacon is a radio bark or a radio buoy with memory and a small processor. Can be used to place virtual GeoCaches, but unfortunately could also to transmit a Suicide Death Bot (a16) to a Cell Phone, Computer, Neuronexus Implant, WO2005055579 to activate the victim to a suicide or amok run, worst case "Nuke function" like in Lemmings" in 1990s.

- * children's toys, GeoCaching (=Sports)
- * air traffic control (ADS-B)
- * unfortunately also electronic / psychological Warfare

Chemitrode

Inventor: José Manuel Rodríguez Delgado
Implants which release chemical substances / drugs that can be triggered via remote control, e.g. Adrenaline metabolism-promoting substances aggression, in the case of melatonin metabolism sleepiness. Influences victim's attention, but can also trigger the victim a suicide or to run amok. Medication but unfortunately also to activate a person as an #MKULTRA Killer ("cyberWAR") or kill the victim remotely with Toxic substances. Today there maybe exists chemitrodes on molecular size.

WARNING, it is very likely to loose access codes of chemitrodes, and then the person that injected the chemitrode would be responsible for the death of the victim that died just because of a SIGINT security problem

PoliceCar (Stimulus-Reaction-Habit)

Inventor: Romans

~500
Etymologically, the term police is derived from the Greek πόλις, polis "city". It referred to the entire public administration (today as "construction police" and "fire police") outside of Greece as the fashion word of the Romans. Maybe abused as Chessman of the authorities, and in many countries the police are the group of people who commit the most murders. See also "Americans 58 Times More Likely to Be Killed by Cops Than by Terrorists"
Violence, riots, sometimes conflict rather escalating, often intimidating, biased often preserving all the power of the upper class, we should teach all cops **inductive reasoning**. (can you find the intentionally placed bug in m35 card?)

NeuroNexus Implants

Inventor: José Manuel Rodríguez Delgado ~1950
Originally developed by Delgado, possibly been enhanced "in secrecy" since 70 Years, placed directly in the brain, and with software like OpenBCI and maybe Deep Learnign algorithms possibly recognizes even detaild thoughts. (see [Neuralink](#), [Elon Musk](#), [HoneyPot](#)) No matter how good the encryption would be, if wires are made out of metallic wires all such devices would be vulnerable to side-channel attacks [$f_c = \lambda / n$] if geometry if the wires are know and there is a transmitting device with enough power nearby. (unsure if t25 or t26 or both cards) I tweeted to Elon Musk asking what he is going to do about this vulnerability, but he did not answer so far. Maybe just HoneyPot for older technologies, and maybe Hashtags are filtered.

Quadrophonic

Inventor: JVC

Year: ~1970
Maybe directly built into the apartments walls, if you would play a **gun-shot sample** (see card m21) could drive the victim paranoid. Quadrophonic or even Octophonic in building with multiple floors would cause the mind to interpret the sounds as authentic and **make neighbours fight each other**

Building ControlUnit with 1990 Technology:

- 2x Gravis Ultrasound Stereo
- 2x Sound Blaster Stereo
- 4x LPT && JDAC / CENT_DAC (see t9 card)

For Therapy (a2 Card). But unfortunately also to make people aggressive to force them to fight against each other :{

moved to c1

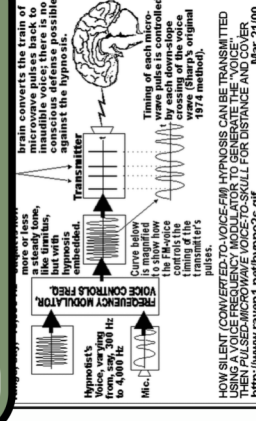

DELETED SCENES

Inventor: ?????
????????

~????

Microwave Hearing (Frey Effect)

Inventor: Allan H. Frey (Cornell Uni) ~1961

"He Hears **non-existent** voices, **invisible** communication channels, **pulsed microwaves** received directly by the cochlea. The exact frequency found by scanning through the possible frequencies, if the victim puts his hand to his ear ("tinnitus"); **Automatic Behavior Recognition**. Was 30 Years not patented until 1989 under **US4877027**. technically it would have been possible to do this maybe already with electron tubes (~ 1900). Psychological Perspective: people that abuse such technology would keep that secret and previously labeled as a "schizophrenic" the victim is completely defenseless and it is likely they induced **suicide** or **amok** in combination with e.g. a loop recorder, see also c02 Card, the perpetrators often caused permanent damage in the psyche of their victims; **PTSD** (#Verdingkinder / #Schwabenkinder / #Slaves)
