SYSTEM-THEORIE

Inventor: Niklas Luhmann Year: ~1914

A **System** is made out of **Elements [E]** or several Subsystems (= abstracted an Elemnt too). The Elements have relations (**Relations [R]**) and the relations have (German: **Konditionierende [K]**) that describes how the Relations have to be. The Law or the Bible or the Koran(?) or Karl Marx "Das Kapital" could be such a "Konditioniernde". This helps to undestand the big picture, Social-, Mechanical-, Biological-, Computer- Systemes or Soaftware.

For example if you have QuantumInserts, Tarmoil Turbine you could also filter or inject words that would make the victim look or drive insane.

ARTIFICIAL INTELLIGENCE

Inventor: Isaac Asimov? Year: ~1960

Artificial Intelligenc, but also Propositional calculus or (German) Prädikatenlogik (= eg PROLOG) or learning algorithms, the so called singularity is meaybe already here, which would explain why I wept when in the end of the Movie "Artificial Intelligence" finally sees his "Mother" again. But this should not be his mother, but his equal aged mental mother that showed him the women side of the world so many yearss ago. Companies are Artificial Intelligences too, but mostly from the dark side of the force. If you want to learn it maybe begin with **mini-max-algorithm and Tic-Tac-Toe**

Controly your **touring complete** Avatar and say something if he/she/it suggests wrong things like violence, murderer, amok...

Suicide Death BOT

Inventor: xxxx   Year: ~????

If a person can be controlled or at least influenced by some technology cards t* evil people unfortunately could create some sort of a suicide death bot, using things like m38 card to make innocent people to comit suicide (attempts).

We think that this is the major way eg. CIA kills people that know to much and the reason news are normally not telling the story from people that commited suicide (maybe they killed Ian Murdock with a suicide death bot). People with lower rank would be told that it's just training or BDSM. But in fact if the Whistleblower would die the whole group would be guilty too and so controllable by eg. the CIA. Those groups that already have "trained" a kid to death would never confess. Forced to keep silent. Possibly the code of such suicide death bots would be packed into proprietary non-deterministic crypto both personalized and generic, eg. m38 would be generic.
