CARNIVORE (software)

co3 — ~1997

Inventor: FBI

Things the public people was informed about and then "suddenly" all people forgot about the thing. So maybe those things are deleted while you are dreaming / sleeping (cards t1, t10, t12...) as a default process for all people globally? If it would be a default process, everybody could maybe find out what they want to delete and focus more on that things.

https://en.wikipedia.org/wiki/Carnivore_(software)

---

how they >try< to delete the brain

co5 — Year: ~???

Inventor: xxxxx

There are several (most non working) methods they try to format the brain of WhiteHats / Whistleblowers. c1, c2, a16, dt1, m22, m27, m41, m44, ma5, m15, t10, co4, m42, but definitley m19. Maybe deleting the scenes of a rape would help the victim, maybe.

Think of the drawing as a visual representation of the contents in your brain and the purple part is what they want to overwrite. Unfortunately brain is not two dimensional, so this would maybe work for a while but, and "anti"psychotics may "help" to keep the victim silent, but in the end nothing is really deleted. That's where the 1960s People have great long-term job opportunities for in the surveillance business payed by the perpetrator, but after a while this "maybe" fails too... https://marclandolt.ch/ml_buzzernet/2015/08/15/visuelle-reprasentation-einer-seelegeistespsyche/

RAWHAMMER ATTACK OF THE MIND

co2 — Year: ~???

Row n+1 (Aggressor)
Row n (Victim)
Row n-1 (Aggressor)
Bank
Row Buffer

Inventor: xxx

You could maybe also use use some similar concept like rawhammer attack but on the mind (eg t1 card). Question an innocent victim if he / she wants to commit suicide, if you do this long enough this thought would be burnt into his / her mind and maybe then cause a real suicide attempt. Never play "red team" always play "blue team". This red team action could maybe would kill a victim, and then they would play dt1 card (but then you are guilty)

maybe in conjunction with co1 card

VDSL-FREQUENCIES

stsct2 — Year: ~???

Version 2.2 Revision: July 1998

TAPR

Inventor: xxxxx

AX.25 would be the simplest way for digital communication over random frequencies. Expect that they have tons of such technolgoies. Never play Red Team, except you really really know what you are doing. just listening to transmissions possibly causes less harm then eg portscanning. Worst case satan even abuses the lives of innocent kids to protect its systems against hacking attacks. If you would kill a kid by a portscan then they own you because then you are a murderer!!

VDSL-FREQUENCIES

stsct3 — Year: ~???

137 — Buchreihe Elektronik
Günter Wahl
Microspione
+Versuche mit Bioelektrizität
Eifeler Bücherstube

Inventor: xxxxx

Electronics Book for Kids, Verlag: Stuttgart Frech, 1977. Warning, if the kid bought or recievied this book in the age of 10 it would be very likely that someone else wants to use him as scapegoat, and maybe the father of this kid is just the second scapegoat.

But it is my bad, that i spied on equal aged girls in scout camp, it worked but poorly

stsct1 — Year: ~???

ADSL — Attenuation (dB)

Inventor: xxxxx

Like the professor said: "I'm glad you asked. No matter how full your life may seem, there's always room for some beer" -- that means, if the agencies are only 5 Years ahead of the consumer-market, they can easily hide unseen Transport Streems in the higher frequencies, here BINS (xDSL) but also in DVB-x or in Docsis (forget the beer, what did we just explain?)

playing unfair with world population that tries to find Satan on Layer 1 of the ISO-OSI Model, but maybe there are other channels, see frequency table and who reserved / bought what frequencies...

INTEL Management Engine

cpu1 — Year: ~???

hacker inside

Inventor: xxxx

Hardware Backdoor... / Firmware Backdoor: See: https://media.ccc.de/v/32c3-7352-towards_reasonably_trustworthy_x86_laptops

Maybe it was intentional that IBM sold the Operating System Market to Microsoft. They could have made a lot of profit. When I started to question what is going on I tried to find the things that caused me Problems in the Operating System. But maybe the Operatingsystem is just halfe of the Story
